

FRANKLYN NMESOMA

Fullstack Developer · PHP & Laravel Specialist · Backend Engineer

 sayhellotodevops@gmail.com |  +234 704 527 5794 |  Remote |  github.com/dev-omaFrank |  franklyn-nmesoma.vercel.app

PROFESSIONAL SUMMARY

Results-driven Fullstack Developer with 3+ years of hands-on experience building robust, scalable web applications. Specialises in PHP and the Laravel framework, with a solid command of both frontend and backend development. Comfortable taking a feature from database schema to deployed UI, and focused on writing clean, maintainable code that solves real business problems. Currently pursuing a B.Sc. at the Federal University of Technology Owerri while actively contributing to production-ready projects.

TECHNICAL SKILLS

Languages	PHP · JavaScript · HTML5 · CSS3 · SCSS · SQL · TypeScript (learning)
Frameworks	Laravel · Bootstrap · Tailwind CSS
Databases	MySQL · SQLite
Tools & Env.	Git · GitHub · Composer · npm · Vite · Artisan CLI · XAMPP
Concepts	MVC Architecture · RESTful APIs · Eloquent ORM · Authentication (Laravel Auth) · Database Migrations · Blade Templating · Pagination
Platforms	Vercel · cPanel hosting · Linux command line basics

PROJECTS & EXPERIENCE

Carsell — E-Commerce Car Marketplace

github.com/dev-omaFrank

Laravel · PHP · Blade · Bootstrap · SQLite

- Designed and built a full Laravel MVC application enabling users to register, list cars for sale, and search via multi-criteria filters (make, model, price range, fuel type, location).
- Implemented Laravel Auth for secure user authentication and session management.
- Built Eloquent query chains with dynamic filtering and pagination for a smooth browsing experience.
- Configured the full Laravel project structure including migrations, seeders, routes, controllers, and Blade views.

Inventory Management System

github.com/dev-omaFrank

PHP · HTML · JavaScript · CSS · MySQL

- Built a multi-module inventory system from scratch using vanilla PHP and MySQL with no framework dependency, demonstrating core backend fundamentals.
- Implemented product management, category and brand tracking, order processing, user management, and report generation modules.
- Structured codebase using PHP includes and action handlers to separate concerns without a framework.
- Integrated Composer for dependency management and set up a custom dashboard with role-based views.

Personal Portfolio Website

[HTML](#) · [CSS](#) · [JavaScript](#) · [Vercel](#)

franklyn-
nmesoma.vercel.app

- Designed and deployed a personal portfolio showcasing projects, skills, and contact information.
- Hosted on Vercel with continuous deployment from GitHub.

Freelance Web Developer

2022 – Present

[Self-employed](#) · [Remote](#)

- Developed and delivered custom web solutions for clients, including landing pages, small business websites, and admin dashboards.
- Managed full project lifecycle — from requirements gathering through deployment and client handover.
- Maintained direct client communication and iterated on feedback to deliver polished final products.

EDUCATION

B.Sc. — Federal University of Technology Owerri (FUTO)

Current

[Undergraduate Degree](#) · [In Progress](#)

Web Development — Aptech Computer Institute

Completed

[Professional Certification](#) · [Completed](#)

CERTIFICATIONS & TRAINING

- Aptech Computer Institute — Web Development Certification
- Udemy — Ongoing coursework in web development, PHP, and Laravel
- Self-directed learning via structured YouTube curriculum (PHP, Laravel, JavaScript, Git)

Available for remote roles globally · Open to contract, part-time, and full-time opportunities
